ABOUT UMAIR

Two decades. Half a million people. One belief.

Umair Jaliawala is an international inspirational speaker, master trainer and changemaker who has spent more than twenty years helping people find the courage to act.

His work has reached over 625,000 people across 213 named organisations in 35+ countries — but the thread has always been the same: real change that outlasts the applause.

As a trainer, Umair draws on business, leadership and personal development alike. His sessions move participants through reflection, discussion and real exercises — built to be lived in the room, not just watched.

Away from the stage, that same belief runs through From Zero, his zero-waste farming social enterprise — proof that you can build something from almost nothing.
